

WIRE STRIPPER

INSULATED SCREWDRIVER

reddot design award
product design 2013

FEATURE:

- Three section ergonomic handle design will be easy tight and loose screw.
- Ergonomic and soft material handle design provides high torsion and reduces the ache on the muscles of the hand and wrist when working for long time period.
- The high torque coefficient will prevent the screwdriver to break when the tool is overstressed.
- All of product will be entirely developed in Taiwan and produce with stable quality.
- Fulfills the IEC 60900:2004 standard.

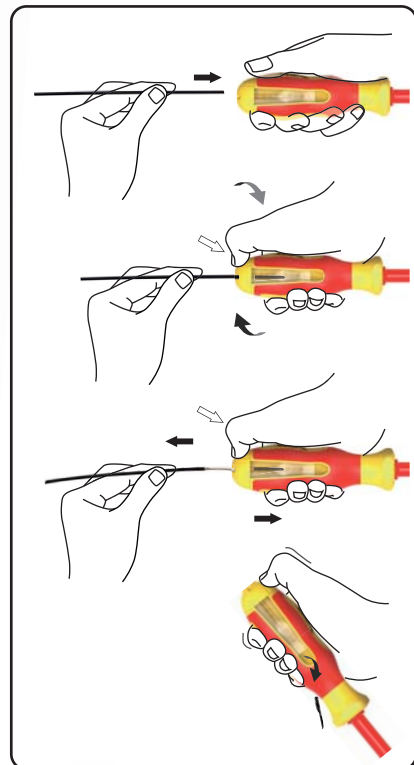

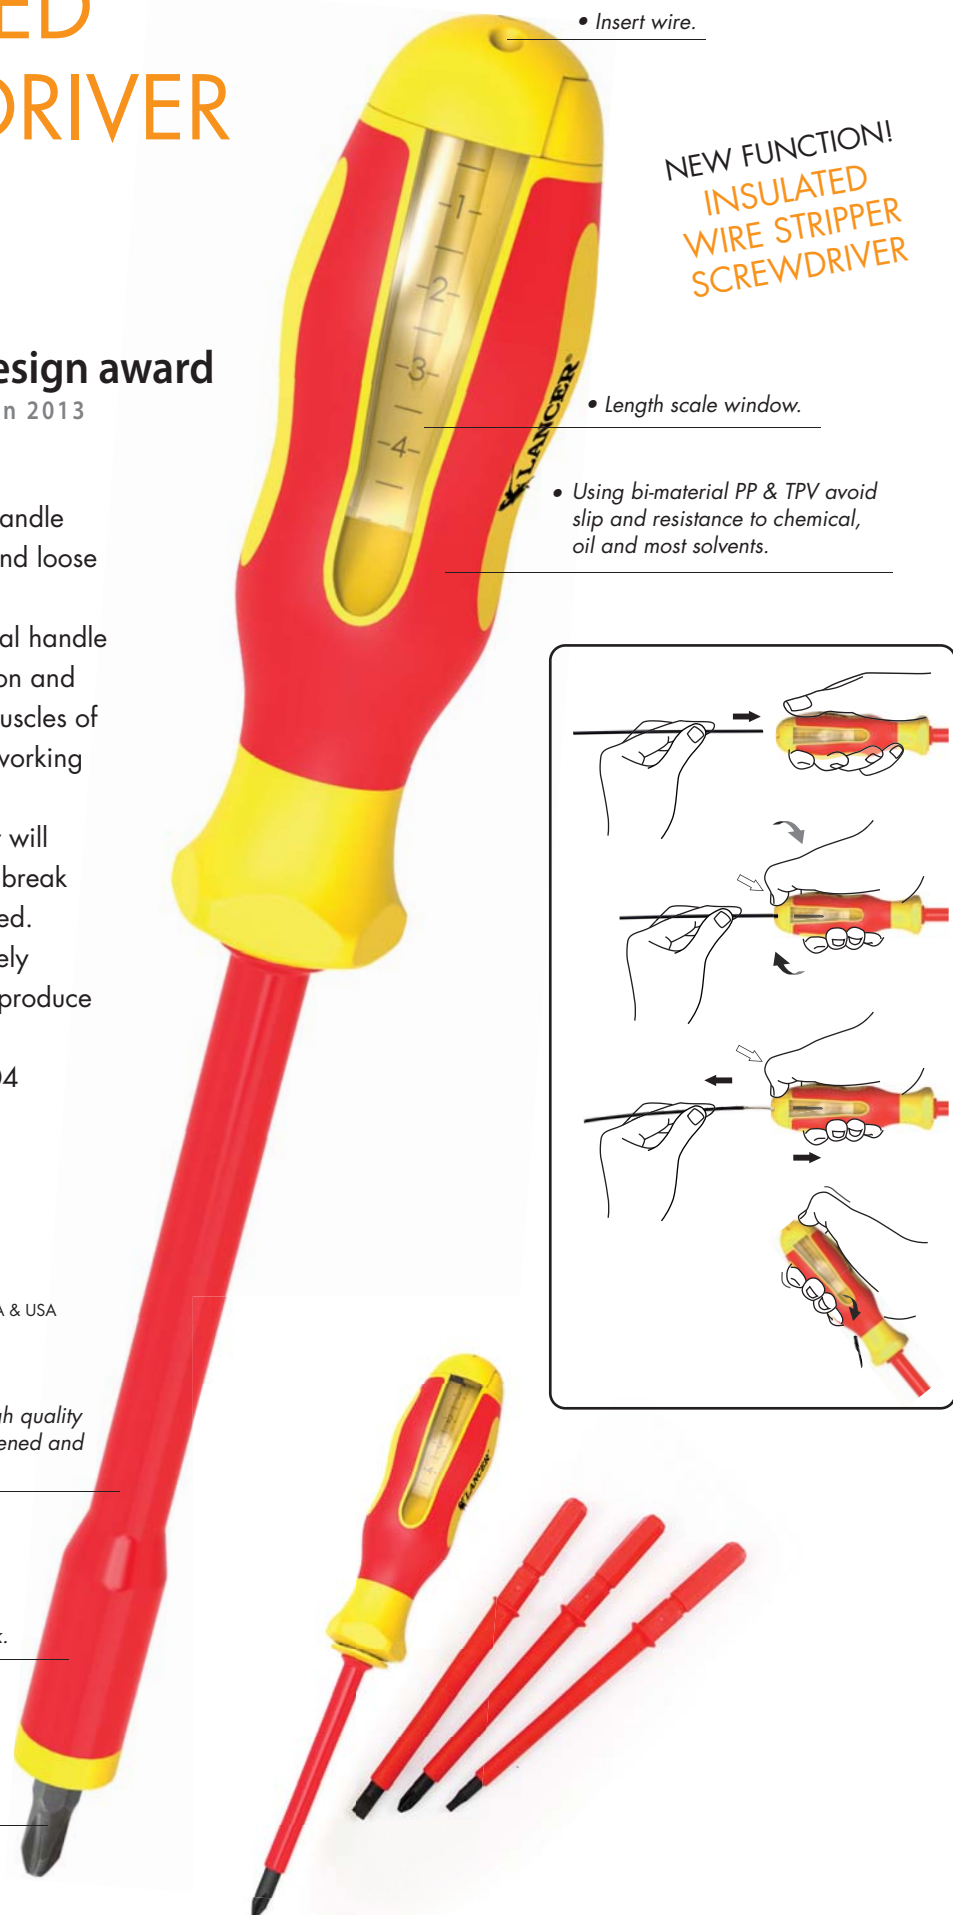

PATENTED IN TAIWAN, GERMANY, CHINA & USA

• Blade made of special high quality SVCM steel, through hardened and phosphate plated.

• Two layers of insulation provide protection against electric shock.

• Blade tip ensure a perfect fit in every screw head.
